Daily Sales Report

The Daily Sales Report shows a summary of daily sales information for the selected stores and date range.

Data is grouped using the following fields:

- **Store**
- **Business Date**
- **Day of the Week**
- **Quarter**
- **Year**
- **Month**

Data is broken down into the following categories:

- **Transaction Count** – The total number of transactions processed.
- **Net Total** – The sum of all sales transactions with discounts applied. Does not include tax.
- **% of Net total** – Shows the total daily sales as a percentage of the total sales for the entire date range selected.
- **Final Total** – The sum of all sales transactions including discounts and taxes.
- **Weather** – Weather conditions for a specific day.
