Overview

This integration allows for Azpiral Loyalty to be utilized within the PixelPoint POS.

Supported Functions

- Return
- Reload
- Balance
- Loyalty
- Redeem Offers
- Redeem Spend
- Redeem Points
- Receipts

Requirements

- POS.exe v. 12.3.12 or higher
- .NET Framework v. 4.0
- PBLWrapDLL.dll (copy into folder C:/PixelPOS)
 - Provided by Azpiral
- NLog.dll (copy into folder C:/PixelPOS)
 - Provided by Azpiral
- Azpiral.dll v. 12.3.14.3 (copy into folder C:/PixelPOS/DLLS)
 - Provided by PixelPoint

Important: Before beginning with setup and configuration, ensure that the files *PBLWrapDLL.dll*, *NLog.dll* and *Azpiral.dll* have all been copied into their respective folders.

Policies

Enable the following policies in BackOffice:

- SecureBarMode
- UseCustomPayment

Note: The POS must be restarted for newly enabled policies to take effect.

Setup and Configuration

1. In BackOffice>General Setup>Coupon Setup, create a new coupon.
2. In the *Description* field, name the coupon.
3. Check the box **Manually Entered Description**.
4. In the *Type of Coupon* field, check **Manual by Amount**.
5. In the *Coupon* field, check **Applies to all categories**.
6. Check the box **Allow other category coupons**.

26. Click the **Setup** button.

27. In the Azpiral section of the Configuration window, enter the Azpiral-provided **Account ID**.

28. The **Manual Entry Support** drop-down menu contains three options:

- Numeric – allows card swipe as well as the manual entry of only numeric characters.
- Alphanumeric – allows card swipe as well as the manual entry of all characters.
- None – allows card swipe only.
- For more information, refer to the Manual Entry section in this document.

29. Check the box **Log Request and Response XML** if you want to log the XML generated by Azpiral during request-response calls for technical support purposes.
30. In the PixelPoint section, ensure Azpiral is selected in the **Method of Payment** drop-down menu.
31. Check the box **Print Receipts** if you want Azpiral loyalty consumption and balance information to be included on the PixelPoint receipt after each transaction.
32. Check the box **Log Request and Response XML** if you want to log the XML generated by PixelPoint during request-response calls for technical support purposes.

Product Setup

1. In BackOffice>Products>Product Setup, create a new product.
2. Complete the boxes *Description* and *Printed Description*.
3. In the field *Price A*, enter a price for the item. Multiple pricings is supported, if desired.
4. Repeat steps 1-3 for each additional product you wish to set up.

Product Setup

Navigation: Back, Forward, and other controls.

Finish Form Setup

In order to use Azpiral Loyalty, three new function buttons are required on the Finish Form. To add them:

1. Go to BackOffice>Administrator>Form Designer and open the Finish Form.
2. Select and open the Finish Form that is currently in use.
3. Add three new TPixelfunctionBtn controls to the form template.

The screenshot displays the 'Finish Form' interface. On the left, there's a 'Void Item' button and a summary section showing 'Net Total : \$0.00' and 'Final Total : \$0.00'. Below this are 'Dine-IN' and 'No Tax' buttons. The top right features a numeric keypad and an 'Amount Due' display showing '\$0.00'. To the right of the keypad is a vertical list of payment methods: CASH, VISA, MasterCard, Amex, Discover Card, On Account, Debit, and Custom Auth. At the bottom right is an 'Apply CASH' button. Four buttons are highlighted with red boxes and numbered: '1 Azpiral Card Balance', '2 Take Azpiral Offers', '3 Earn Points with Azpiral Card', and '4 Refund with Azpiral Card'. The bottom status bar shows '# of Cust: 1', 'Time Seat: 10:44:42 AM', 'Server: Supervisor', and a row of icons for Logout, Q#1, Help, Print Receipt, Coupons, Gift Card, and Leave.

4. For button number 1, set the *FunctionType* to *ftOrder*, *FunctionName* to *BalanceInquiry*, and the *Caption* to the text you would like displayed on the button (ex. Azpiral Card Balance).
5. For button number 2, set the *FunctionType* as *ftCustomDLL*, set the *FunctionID* to 100, and set the *Caption* to the text you would like displayed on the button (ex. Take Azpiral Offers).
6. For button number 3, set the *FunctionType* as *ftCustomDLL*, set the *FunctionID* to 101, and set the *Caption* to the text you would like displayed on the button (ex. Earn Points with Azpiral Card).
7. For button number 4, set the *FunctionType* as *ftPayment*, *FunctionName* as the method of payment configured earlier (Azpiral), and the *Caption* to the text you would like displayed on the button (ex. Refund with Azpiral Card).
8. Save the Finish Form and exit.

Tip: To easily match the style to the buttons already on the form, copy and paste an existing button.

Using Azpiral

Refund

In order to refund Azpiral transactions, an additional button is required on the Order Form. To add this button:

1. Go to BackOffice>Administrator>Form Designer and open the Order Form.
2. Create a new function button.
3. Set the *Caption* field to **Return Entire Transaction**.
4. Set the *FunctionType* field to **ftOrder**.
5. Set the *FunctionName* field to **Return Entire Transaction**.
6. Save your changes and exit the form.

FunctionName	Return Entire Transaction
FunctionType	ftOrder

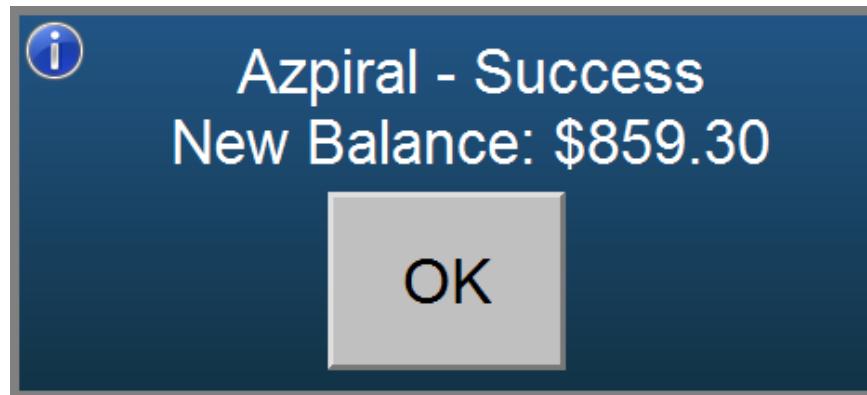

To refund a transaction paid for with an Azpiral card:

1. On the order form, click the newly added **Return Entire Transaction** button.
2. Enter the number of the transaction to be refunded.
3. Click [OK]. The Finish Form will open the transaction.

The screenshot displays the Azpiral POS interface. On the left, a list of items is shown: '-1 Hot Dinner (\$2.00)', '-1 DR OETKER MOZZA PIZZA (\$3.59)', and '-1 Loyalty Discounts \$0.50'. Below this, the 'Net Total' is (\$5.09) and the 'Final Total' is (\$5.09). A 'Void Item' button is visible. In the center, there are buttons for 'Payments...', 'Divide By', 'Azpiral Card Balance', 'Take Azpiral Offers', 'Earn Points with Azpiral Card', and 'Refund with Azpiral Card'. To the right of these buttons is a numeric keypad with digits 0-9, a decimal point, and a back arrow. Above the keypad, the 'Amount Due' is displayed as (\$5.09). On the far right, there is a vertical stack of payment method icons: CASH, VISA, MasterCard, Amex, Discover Card, On Account, and Debit. At the bottom of the screen, there is a status bar with '# of Cust: 1', 'Time Seat: 10:29:07 AM', and 'Server :Supervisor'. Below the status bar are icons for 'Logout', 'Q#1', 'Help', 'Print Receipt', 'Coupons', 'Gift Card', and 'Leave'.

Note: Use the **Payments** button to confirm the payment method used for a given transaction before completing a refund to ensure it is being refunded using the same method as was used to pay for it.

- Click the newly added **Refund with Azpiral** button.
- Swipe the Azpiral card. A window will appear confirming that the refund was successful and showing the new balance of the card.

Reload

To add funds to an Azpiral card:

- From the Finish Form, click the Gift Card button.
- In the resulting window, select the amount of funds to be added. Click the **Enter Amount** button to manually enter an amount.

 A screenshot of the "Sell Gift Cards" screen. The title "Sell Gift Cards" is at the top. Below it, there's a "Select Amount" section showing "\$10.00" and an "Enter Amount" button. To the left of these are three numbered steps: 1, 2, and 3. Step 1 has buttons for 10, 20, 25, 50, and 100. Step 2 has buttons for "Issue", "Reload" (highlighted in green), and "Manual Enter". Step 3 has an "Add New" button. On the right side, there's a "Summary" table with columns "Value" and "Quantity". The table shows one entry: Value \$10.00, Quantity 1. At the bottom right, it says "Value: \$10.00 Quantity: 1". At the very bottom, there are buttons for "Restore", "Save", "Detail", "Cancel" (with a red X icon), and "Finish" (with a checkered flag icon).

Summary	
Value	Quantity
\$10.00	1

- Select **Reload**.
- Press the **Add New** button to add the selected value to the Summary field on the right.
- Click the **Finish** button after confirming the amount to be added is correct.

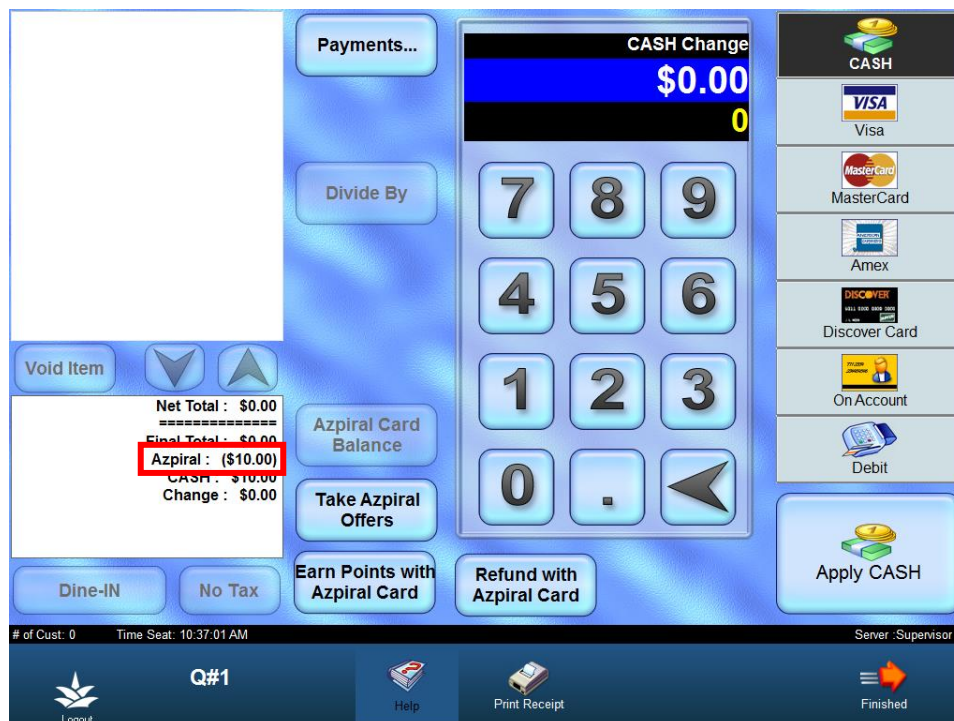

6. Swipe the Azpiral card when prompted.

7. If the transaction is successful, a window will appear confirming the transaction and displaying the new balance of the card.

8. In the Finish Form, select a method of payment and collect payment for the funds loaded onto the card.

Balance

To check the balance of an Azpiral gift card:

1. From the Finish Form, click the newly added button **Azpiral Card Balance**.
2. Swipe the card.
3. A window will appear displaying the balance of the gift card.

Note: It is recommended to always Take Up Offers first before moving on to Spend Amount or Redeem Points

Take Up Offers

To redeem offers using an Azpiral gift card:

1. Create an order with any type of items. This can be a mix of items both with and without Azpiral offers.
2. On the Finish Form, click the button **Take Azpiral Offers**.
3. Swipe the Azpiral card. The following window, containing four sections, will appear:

The screenshot displays a software interface for redeeming offers. It is divided into four numbered sections:

- Section 1:** Transaction ID (2004), Registered (Yes), Member Name (1012985751 1012985751), Points this Sale (47.32), Spend Balance (\$869.30), and Points Balance (1539.72).
- Section 2:** A table of available offers with columns for Offer, Type, Qty, Max, and Take up.
- Section 3:** A table of items in the current order with columns for Item, Barcode, Price, and Qty.
- Section 4:** A summary table showing Sub Total, Spend, Loyalty Discounts (highlighted with a red box), Standard Offer Discounts, Points Value Redeemed, and Total.

At the bottom, there are buttons for 'Take up Offers', 'Spend Amount', 'Redeem Points', 'Cancel', 'Start Over', and 'Complete'.

Offer	Type	Qty	Max	Take up
SO2 Test Item	POINTS COST ITEM	1	938	<input type="checkbox"/>
SO5 Test Item	DISCOUNT AMOUNT I...	3	820	<input type="checkbox"/>
SO11 Test Item	FREE ITEM	1	1	<input type="checkbox"/>
SO13 Test Item	TREAT ITEM	2	3	<input type="checkbox"/>

- Section 1 contains transaction, member and balance information.
- Section 2 contains a list of offers available for the current order.
- Section 3 contains a full list of items in the current order.
- Section 4 contains a summary of information for the current order.

Any *Loyalty Discounts* available for the current order will be shown in Section 4 beside a heading of the same name. Available Loyalty Discounts will be automatically applied to the total as shown at the bottom of Section 4.

4. In Section 2, select offers to redeem for this order by checking the box beside each product in the Take Up column.

- Change the quantity for each item by clicking the number in the Qty column and entering a value in the keypad. A maximum number will be shown, if applicable.

Quantity (Max = 3)

1 MC CAIN M/WAVE	\$1.00
1 Loyalty Discounts	(\$1.25)
1 Hot Dinner-DISCOUNT AM	(\$0.60)
1 Points Redeemed	(\$5.00)

Net Total : \$41.72
 Final Total : \$41.72
 Azpiral : \$10.00
 Change : \$0.00

Once the discounts have been applied, it is not possible to return to the Azpiral window. Clicking the **Take Azpiral Offers** button a second time after applying discount will return the following error:

Earn Points

Azpiral customers automatically earn points from each order every time they Take up Offers, Spend or Redeem points. If a customer does not wish to apply any discounts but wants to redeem points from their current order, click the button **Earn Points with Azpiral Card**.

Manual Entry

Depending on the settings chosen during setup, it may be possible to manually enter an Azpiral card number manually. The Manual Entry Support section of the Azpiral Configuration window contains three options:

1. None – allows card swipe only.
2. Numeric – allows card swipe as well as the manual entry of only numeric characters.
3. Alphanumeric – allows card swipe as well as the manual entry of all characters.

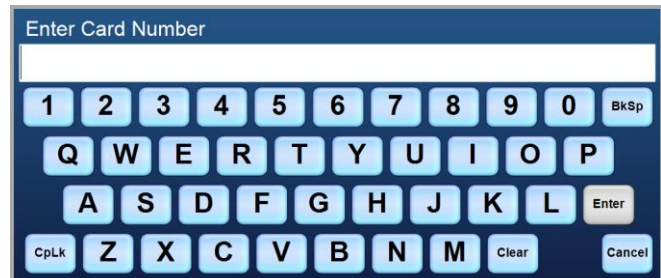

If the Numeric or Alphanumeric options are chosen, prompts to swipe or scan an Azpiral card will also include a button to manually enter the card number.

If Numeric is selected under the Manual Entry Support section, clicking the **Manual Entry** button will cause a numeric keypad to appear. Use this to manually enter the card number.

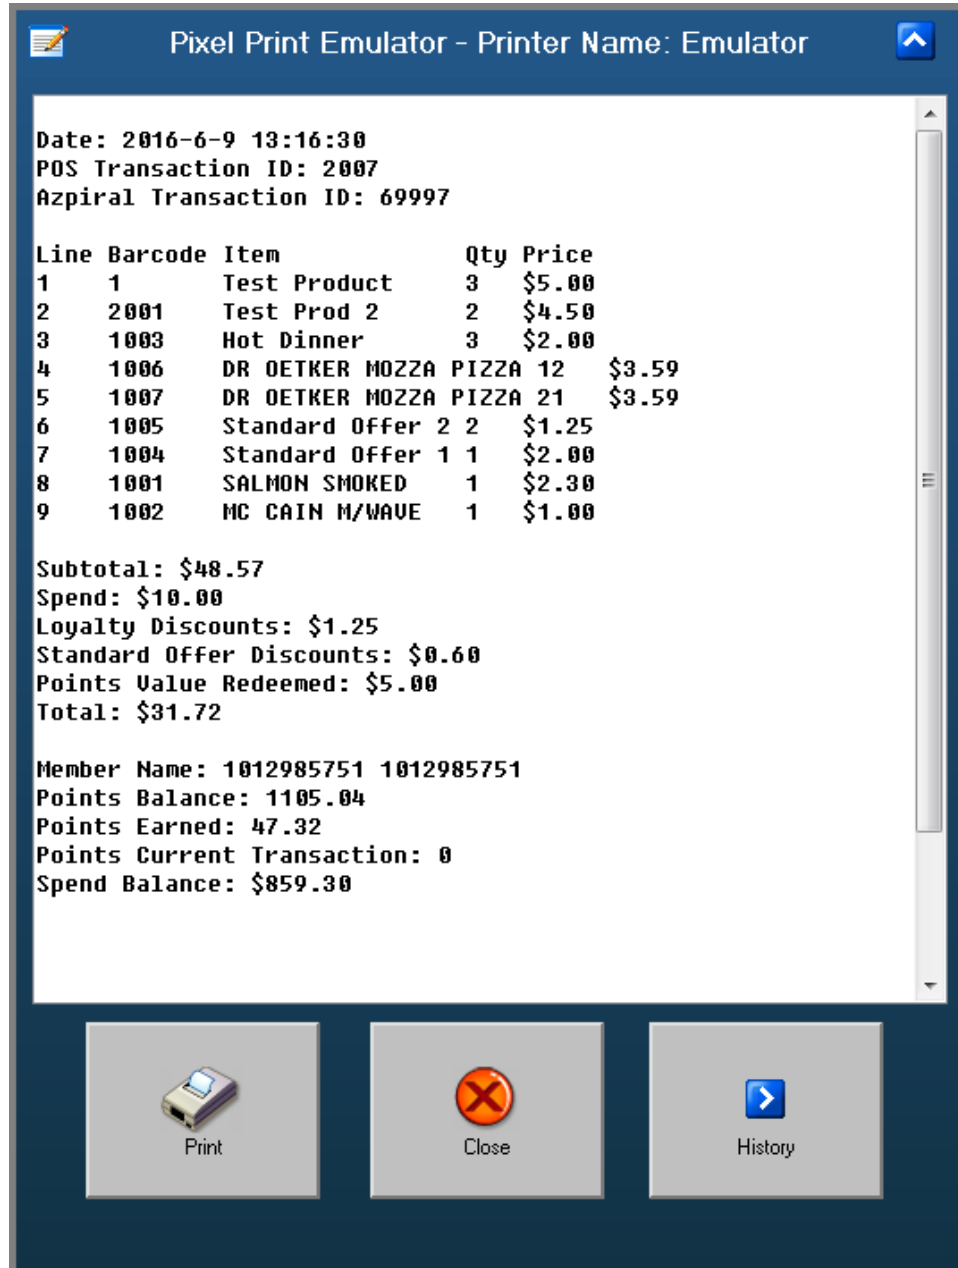

If Alphanumeric is selected under the Manual Entry Support section, clicking the **Manual Entry** button will cause a full keyboard to appear on screen. Use this to manually enter the card number.

Receipts

If the option to Print Receipts was selected during the setup process, the POS will build a receipt that includes Azpiral consumption and balance information. If the Print Receipts option is not checked, a normal POS receipt will be generated.
